

A-LEVEL H1

MATHEMATICS

INTENSIVE CRASH COURSE

Module 1

Statistical Distributions
Equations, Inequalities

Module 2

Correlation and Regression
Functions
Graphs

Module 3

Differentiation and its Applications
Integration and its Applications

Module 4

Probability
Sampling
Hypothesis Testing

The 16-hour **A-Level H1 Mathematics intensive crash course** is divided into four modules. Each module is specially crafted to ensure that our students are well-prepared for their upcoming examinations.

Students who register for our crash course can look forward to picking up new techniques, which can be applied to answering examination questions. Important concepts are explained in a simple and creative manner to aid memory.

In addition, students will:

- Revise foundational knowledge
- Discover exam shortcuts and secrets
- Learn how to avoid common mistakes
- Relate content from different topics

Register Now!

This course is suitable for individuals or groups of up to 3 students. Rates may vary according to location and timing.
